**Suggestions for changes in the Course Curriculum of BBA Programme**

**Proposal-II (As per NEP 2020)**

The Proposed Curriculum changes are suggested in the light of Reports published by reputed national and international bodies like Mckinsey, World bank etc. as India is transforming itself into digital driven economy. So a paradigm shift in curriculum and pedagogy is required to hone the skills of BBA graduates as per the requirement of the Industry. For designing of the proposed curriculum, a rigorous virtual brainstorming session with all stakeholders like Industry experts, Employers, Students, Alumni and faculty members.

As per the information generated, we could identify the few emerging areas where lot of job opportunities will be available.

- Digital Marketing Specialists
- Data Analyst
- IOT Solutions Architect
- Social Media Manager
- User Experience Designer
- Inbound Marketing Specialist

For making our students future ready for the proposed curriculum, a blended learning pedagogy should be followed aggressively. The teaching learning should be simulation techniques based, collaborative and experiential. Thus we highly recommend that the course should be taught with the help of case studies, group discussions, role plays and presentations.

While drafting the proposed curriculum, the guidelines of the New Education policy 2020 were also considered. We have proposed the core and elective subjects for every semester with the proposed credits of each subject.
