The guest lecture was whole in all very informative and also knowledgeable in regard with the students.

The speaker highlighted the topics which are important in the students' perception but were forgotten due to competitiveness among the students. Things such as "keep a very high target so that you can achieve high" and the line that study matters but more importantly it is the person who carries it. The confidence, personality and knowledge changes everything, even if they don't know the answer, the confidence with which they "I am sorry sir/ madam, I don't know the answer to that" speaks a lot.

Such eye opening lectures should be conducted more often so that the students can understand truly the meaning of personality development.

Guest Speaker Dr. Dewakar Goel sharing his valuable experiences with the students

Learning Outcome:

- Students had their dilemmas sorted out on whether to apply for jobs in private or public sector or go for higher education after graduation.
- The students also started working on their foreseeable future after their confusion was gone.
