Studying abroad during university education has an advantage on several fronts. It is a bold decision – one that involves leaving your home and stepping into unfamiliar territory, but your personal growth and the experience of living internationally will open more doors than you can possibly imagine. COVID-19 has stormed through the global economy, grinding almost all activities to a halt. This also includes the education industry, which has been affected on various grounds. Initially, there was a drop in the overall percentile of students investing in abroad education. However, now, the international governments of many countries have stepped forward with provisions to help students pursue their dreams.

The session aimed at informing students about opportunities abroad. Students participated with enthusiasm and those who faced any issue were guided by Ms. Vinu Warriar. The session was informative and did aware the students.

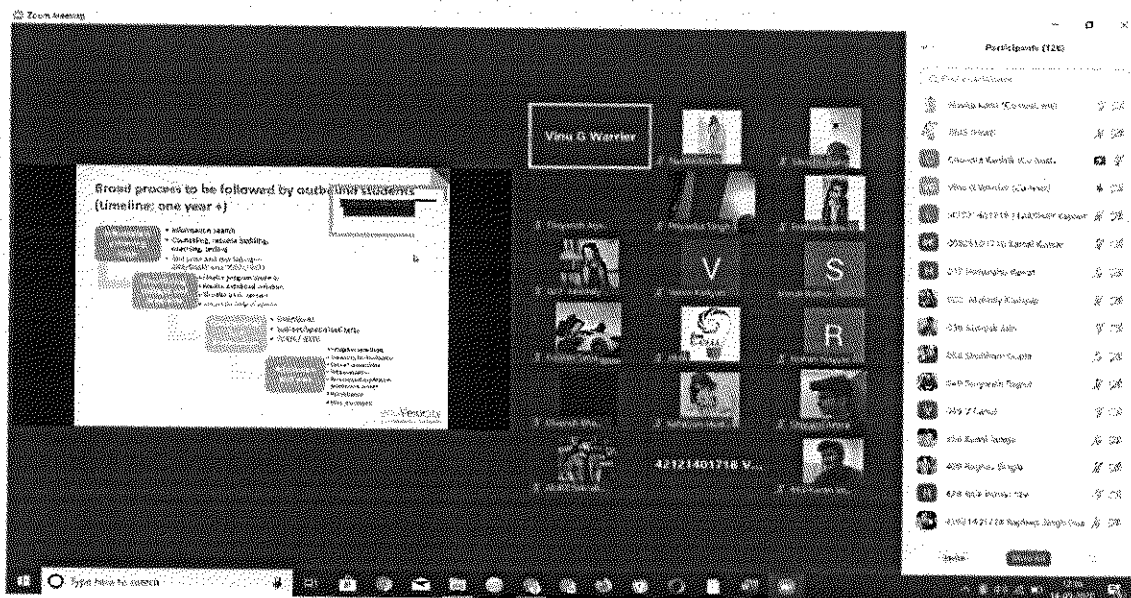

Learning outcomes:

1. Importance of Higher Education from abroad.
2. Growth opportunities while studying abroad.

The lecturer was very impressive and interactive. He emphasized on personality traits for which MNCs look in the freshers. The students were enthusiastic too and they asked many queries. Mr. Jatin took each and every query very prudently and provided solutions with many examples.

Mr. Jatin told that one can stand out from crowd by expressing his or her ideas with confidence and impact. He emphasized that one should have the desire; strong self-belief that gradually increases one’s confidence and can help one to stand out and show their presence.

This session was a much needed one, seeing the kind of dilemma the college students are facing these days due to present situation. Acknowledgments to department of management for helping its students in this difficult time by conducting such important guest lecture through zoom app.

The lecture started with the introduction of the guest speaker. The guest speaker, Ms. Bhawana Dhawan started the lecture with her success mantra of believing in making the worst-case scenario in one’s own favour by grabbing the best opportunity out of the available situation. She enlightened us about the 5 rules of corporate life, i.e. Conviction Driven, Over Learning, Audible Ready, Consistency and Honesty Based. She elucidated all these rules with examples of great personalities, like MS Dhoni, Madhuri Dixit, Sanjeev Kapoor, Lata Mangeshkar, Ratan Tata and Mahatma Gandhi.

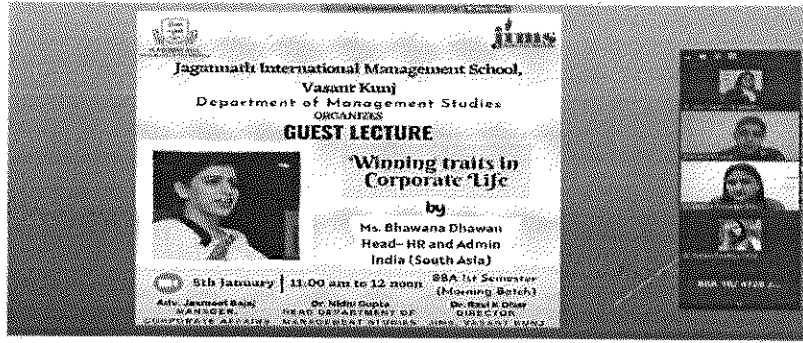

The speaker also discussed the important winning traits and behaviours for a successful corporate life. She explained that one should follow a purpose led, agile, collaborative, resilient and positive approach for the company in order to be more efficient and effective. She believed that one should never stand still and never be satisfied with what he/she has, and always be rejuvenating and ahead of time. Ms. Dhawan also threw light on being persistent and adaptive and emphasized on having an optimistic mindset and being self-motivated using the available resources and taking advantages of the opportunities in the best possible way.

How to Develop an Entrepreneurial Mindset

Report:

A guest lecture was organized on 24th February, 2021 for the 1st year students in which, Dr. Nancy Juneja discussed about the entrepreneurial mindset as a difference between success and failure.

Dr. Nancy Juneja herself being an Entrepreneur discussed how students can develop this mindset. She mentioned that Entrepreneurship comes with a package which converts every scenario into an opportunity. She said that People don't buy what you do; they buy why you do it. She talked about the mindset shift which converts every problem into an opportunity irrespective of resources available to them.

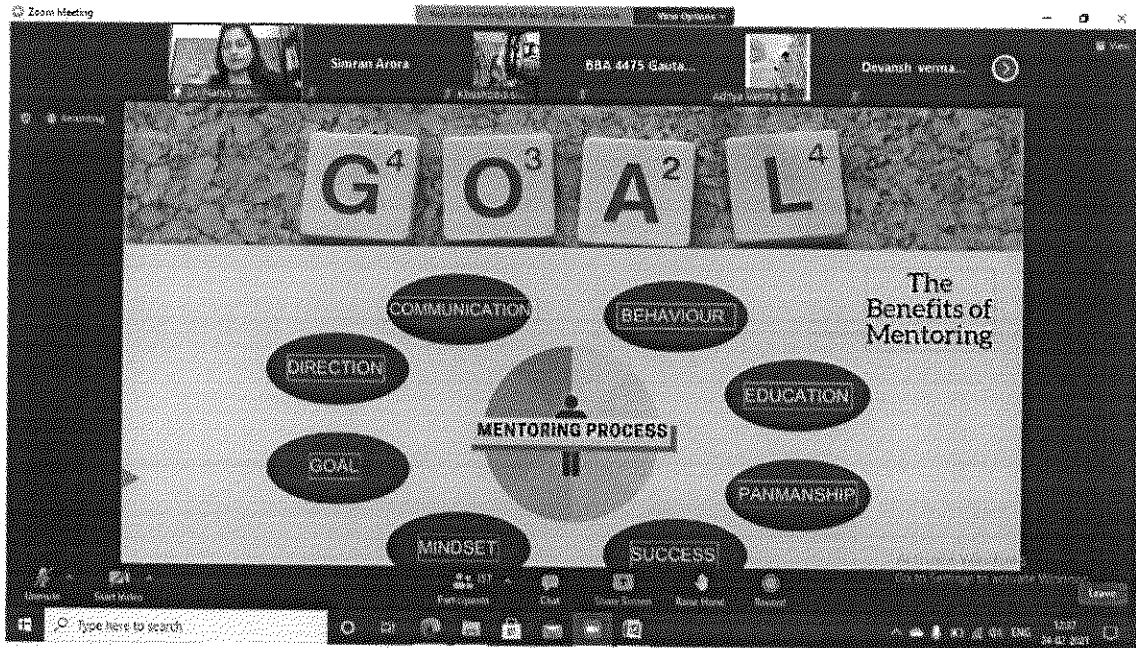

Dr. Nancy Juneja compared one's own psychology, mind, sensitivities, purpose, and desires with an entrepreneur's habits and mindset. Entrepreneurs need to be aware of their skills as successful entrepreneurs are only identified by what they value, what matters most to them and how they prioritize their commitments. Dr. Nancy enclosed all the important components of entrepreneurial skills and portrayal of how to implement it.

Over all it was a great lecture indeed and the students really enjoyed it. Dr. Nancy Juneja was witty and very informative. I m sure everyone understood the qualities they need to possess by the valuable information she gave. Towards the end she gave a few minutes to field questions.

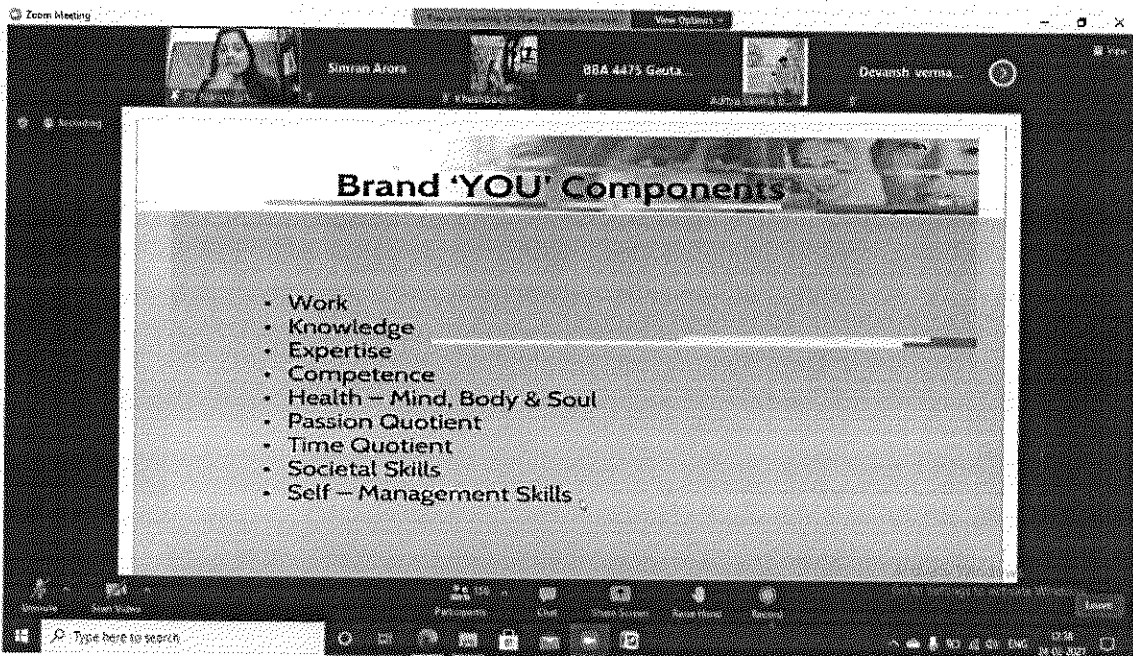

Learning Outcome:

- Develop entrepreneur's habits and mindset.
- Be commitment to yourself and to your dreams.

3. Learn from people's personal experiences and failures

Report:

The BBA department had organised a guest lecture on “**Campus to Corporate**” for the students of BBA IV and VI semester on Zoom Platform. The guests were Ms. Ritika Malhotra and Ms. Yashmeet kaur.

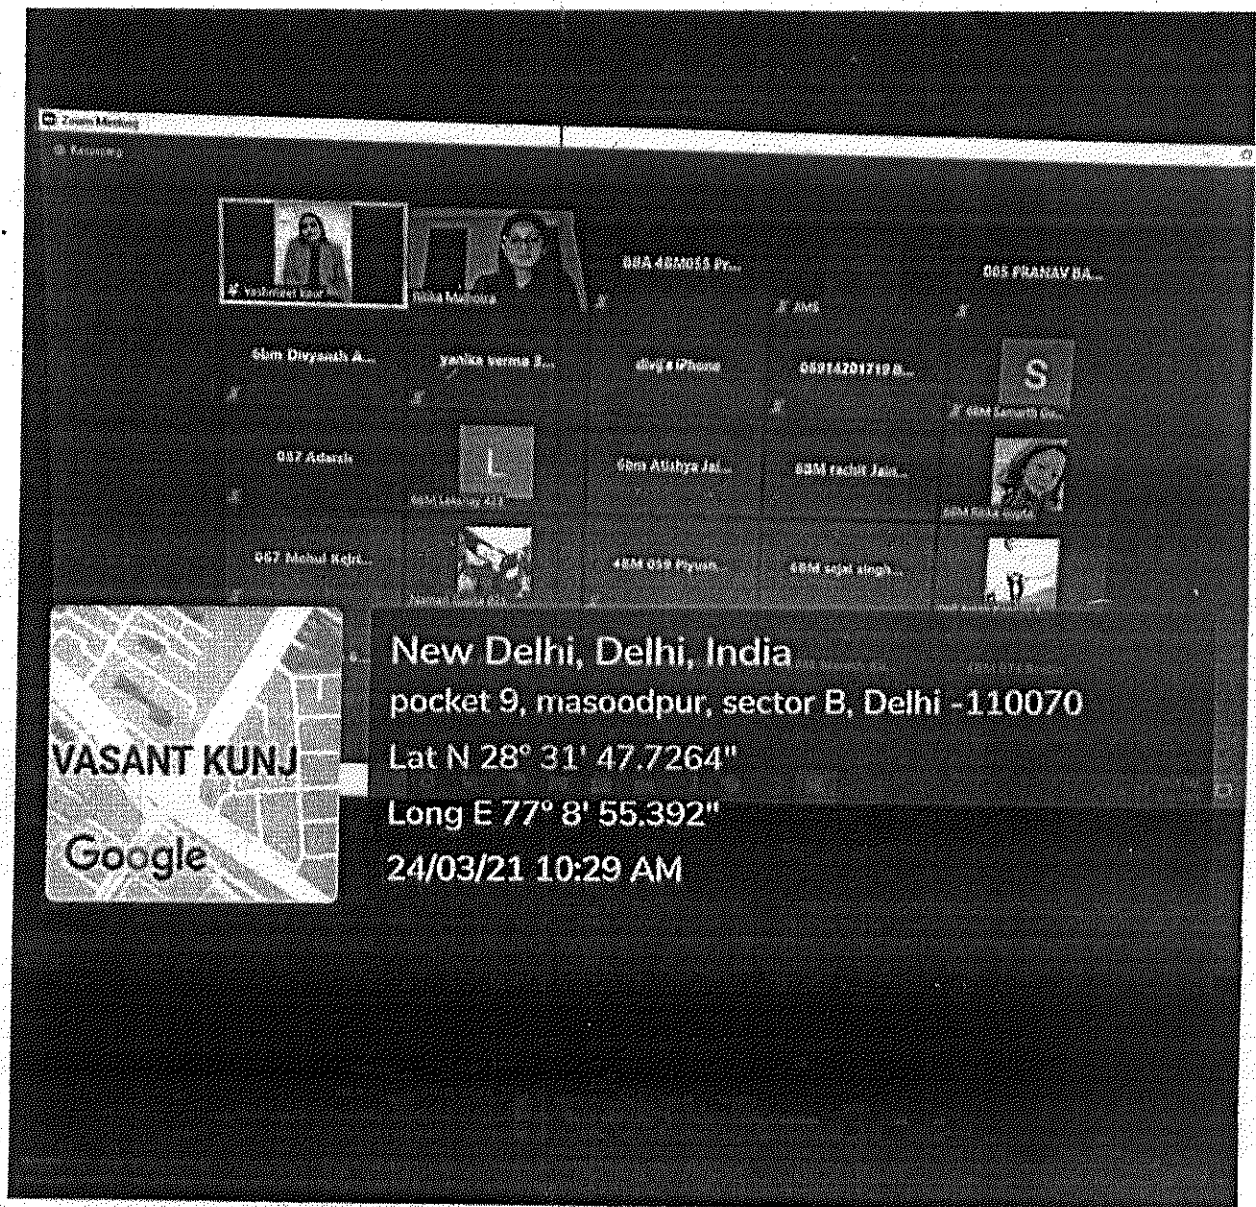

The lecture started with a formal introduction of the imminent speakers. Ms. Yashmeet Kaur started the lecture by talking about her failures and how it affected her mental health as she was not able to score good grades, but trying new things out of her comfort zone really helped her gain confidence and experience. Whereas, Ms Ritika Malhotra shared her experiences in JIMS, Vasant Kunj and how she found inspiration and her voice in college. She told, she participated in a lot of extracurriculars and building her network. They also emphasized on trying out different internships, finding your passion and where you can utilise your full potential. They also shared their experiences studying abroad.

They discussed questions like “How one should decide which major to pursue”, “what were the best decisions they took in college” and “How working abroad is different from working in India”. Towards the end students realised how important it is to try new things, experiment and what new opportunities they can take up in future to develop their skills. The session was very insightful and encouraging for the students. The session ended with a vote of thanks.

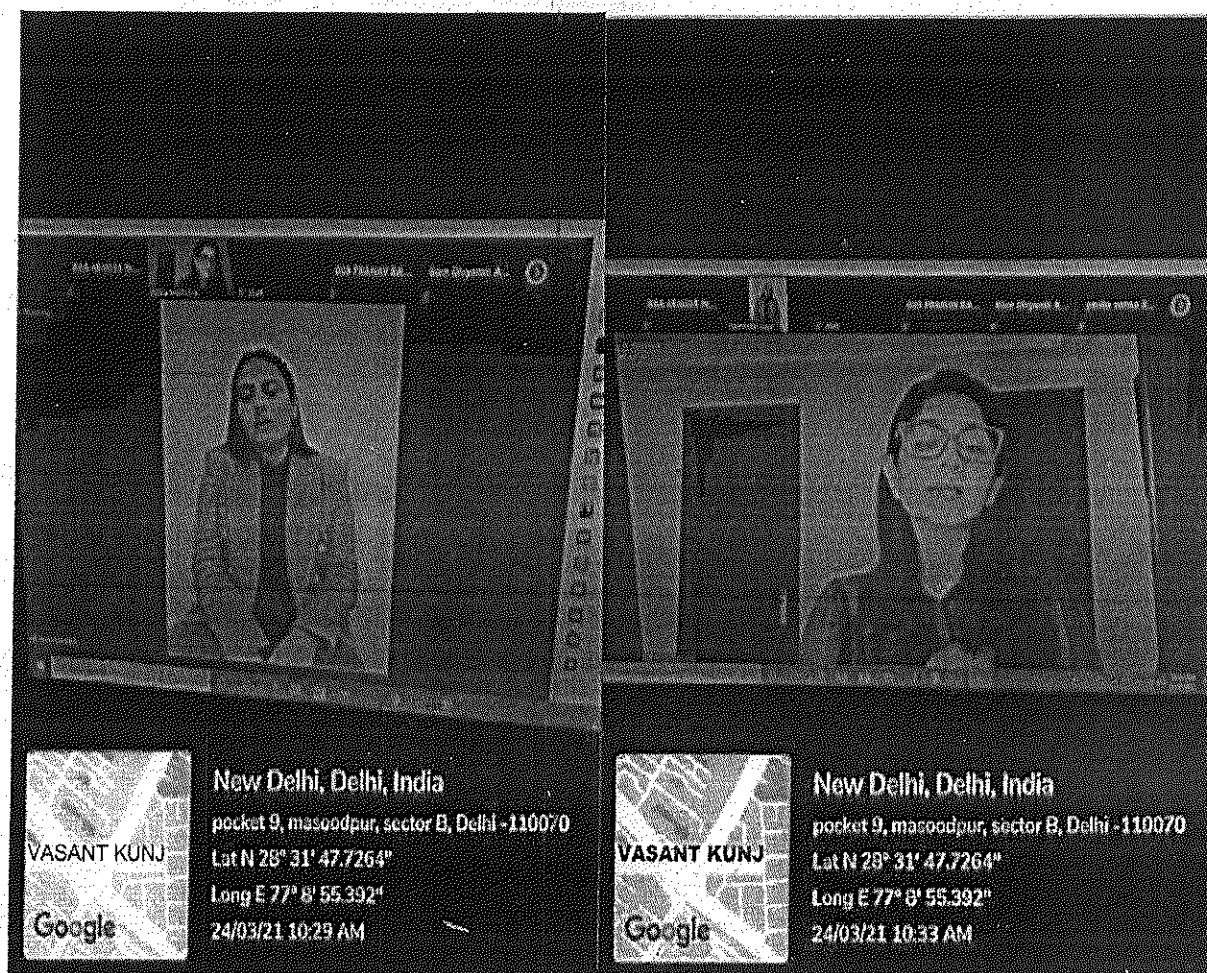

Learning outcomes:

1. Comfort and laid back attitude can hamper one's growth
2. Importance of internships and outside exposure
3. Developing personal skills and taking up new challenges
4. A setback doesn't define you and mental health is important

After the brief introduction about Australia was completed, Ms Kaidan told us about the various opportunities an international student can explore in Australia. She also informed us that there are about 11000 institutions and 22000 courses to choose from, which means, the options are never ending. Students can easily work while studying, which helps them in meeting their college and personal expenses.

She also told us that education in Australia is mostly based on technology and research work, and that students can easily intern in their choice of industries to gain experience. According to her, one of the best things about Australia is its people. She told us how most residents are people from various social backgrounds and ethnicities, which makes it all the more fun and welcoming for new international students. Before the session came to an end, Ms Kaidan answered various queries of the students.

The session started with the introduction of the speaker. Ms. Yukti Jain, our esteemed speaker for today's webinar started by interacting with students. It was an enlightening and inspiring session where the speaker told the participants about her journey in IT sector. She talked about the points that we need to focus on while giving interview i.e., being on time is very important, always dress up in formal attire, how to answer questions that are asked by the interviewer and stay calm.

She also spoke about the ways to build confidence. She said one should work in coordination with others and should help others to build confidence rather than gossiping. She also helped participants to solve their doubts related to their resume and companies. It was surely an informative session for all the students.

Time: 12.05 PM- 1.10 PM

Venue: Zoom

Resource Person (s) with Designation and Organization: Mr. Pankaj Athawale, Sports Commentator, Archery, Coach and Author

Learning Objective:

1. To know about Sports Journalism
2. To know about career avenues in Sports Journalism

Report: The Department of Media and Communication Studies organised guest lecture on possible Career Avenues in the field of Sports Journalism was held for the students of both shifts of the II semester. The learning objective was to gain in depth knowledge about the real-world possibilities in Sports Journalism. The Guest Speaker was kind enough to visit the campus and conduct the workshop virtually for the students.

The Speaker began the workshop by introducing the students to what Sports Journalism means in the real world. He clarified that a student might be labouring under the misconception that what he/she thinks he/she is good at, is what the audience wants to read about. This could not be further from the truth. Mr. Athawale clarified that its imperative to know the pulse of the audience and then glean news and data that is commensurate with it. If this is not done, one ends up shooting in the dark and might not end up being a successful sports journalist.

Mr. Athawale then enlightened the students in detail, about what it takes to make it as a journalist in the real world. To begin with its absolutely critical that the students are actively involved in more than one sport. This would serve as a sound foundation for their careers. This would also give them an edge over non players or those who have first-hand knowledge of merely one sport.

Mr. Pankaj Athawale conducting the guest lecture

The next step would be to acquire in-depth knowledge of the subject in hand. This would entail knowledge of rules, regulations, background, statistics, teams, team players and player profile details. Mr. Athawale spoke about the advantages of being conversant with languages. Being multilingual he said can be a crucial factor in increasing the portfolio of work that one can obtain. He quoted himself as an instance, in that he was conversant with Hindi, English, Urdu and Marathi and is a professional Sports Commentator in all of these languages.

Mr. Athawale concluded by emphasising the need to activate one's Public Relations skills and build connections wherever and whenever possible.

He helpfully guided the students during the Q&A session on a wide range of relevant topics.

Mr. Pankaj Athawale interacting with students

Learning Outcome:

1. Students came to know about nuances of sports journalism
2. Students came to know the different career avenues
