The Talent Transformation team at Wipro grooms campus selects to help them face the challenges of the corporate world.

A holistic 360 degree approach to training is adopted and helps them hone their fundamental computer skills followed by insights into Wipro businesses, process, technology and behavioral skills.

To understand and appreciate the mindset of the young Trainees and ensure that the transformation is smooth, the induction program is done by a team of dedicated professionals who have exposure to the academic and corporate sectors alike. Project Readiness Program (PRP) is a training program designed to address the basic learning needs of the Trainees.

#### **Corporate Readiness Program - CRP**

#### **Technology Readiness Program - TRP**

The technology training provides critical technical skills required to work on projects allocated to Trainees and prepare to face the demands of the project world. We begin doing this by familiarizing with Wipro's businesses and work environment.

The methodology of training is "Project Based Learning" (PBL) approach, the entire learning is designed around a series of projects that the recruits are expected to complete individually by learning and applying various topics required to complete the project. Starting with individual projects, the PBL approach ends with recruits working on a team project.

Additional details will be as per the Performance Linked Incentive (PLI) program of the Company. In the event of a conflict in interpretations and terms; the PLI program applicable for the corresponding year will supersede anything mentioned in this letter.

- f. **\*\*Tenure based Assured Bonus (TAB) –** Tenure based Assured Bonus, as the name suggests, is earned by an employee only on reaching a particular milestone date. It is an earning for being in the Company on a particular date. Based on requests from employees in the past, the same is paid as an advance only to help employees have better cash flows each month.

However, it does not mean in any way that the money has been earned, until the milestone date is reached. Should an employee resign/leave the Company before the milestone date, advances paid are recoverable (at pre-tax value). At this point of time, the applicable milestone dates for TAB are 31st May and 31st December – the same may be changed from time to time. For better clarity, an employee gets entitled to the TAB advances paid out between June to December on 31st December and for advances paid between January to May on 31st May. The TAB advances paid to employees who leave in the year are not taken by the Company for any other purposes. They are distributed to employees who stay back and bear the impact of attrition, knowledge transfer and additional work load. Since this is a normal feature of recovery each year, the personnel cost of the Company is increased at the beginning of the year from what it can actually afford, keeping in mind the possible recoveries that will happen in the later part of the year. The extra money of recovery leads to marginally higher increases for everyone. The same is reflected in the annual reviews and is distributed consistently across all, instead of any particular sub-group.

- g. **\*\*\*Total Cost to Company (TCTC)** will be considered as the base for any future compensation reviews.
- h. **ESIC (Coverage under Employees' State Insurance Act) :** Basis the eligibility criteria for your coverage under ESIC and in line with the statutory requirements and amendments thereto from time to time, your salary will be subjected to necessary deductions towards employee's contribution to ESIC. The company will make the necessary employer's contribution accordingly.

I have read the terms and conditions mentioned in Annexure. I understand and accept the same without any reservation.

## Annexure 2: HEALTH AND SAFETY POLICY

### 1. Introduction

Randstad recognizes people as its most important asset and is committed to ensuring safe and healthy work environment for all its employees and people visiting its premises. Randstad's Corporate Policy necessitates a specific Health & Safety Policy for its outsourced employees. Given that our EWs are redeployed to various client sites, where each client's Health & Safety Policy would be different, it is our commitment to ensure that our EWs have safe working conditions, where risks if any, are well managed and our clients treat all our EWs as they would treat their direct employees in matters of health & safety.

This document is to be read and thoroughly understood by all Randstad EWs at the time of joining an assignment; it requires them to be aware of the policy and our recommendations for safe working practices.

We assure that we will not depute an EW to a client site, which causes an Occupational Hazard or risk to Health. We will only work with clients who are aligned to our Health & Safety Policy for EWs. Additionally, we advise our EWs and employees to bring to our notice, situations that an EW might encounter and could be a potential health & safety issue.

We also ask our EWs not to endanger themselves or their colleagues at work by violating any safety rules, and to comply with work place instructions besides ensuring that they wear Personal Protective Equipment where advised. Our EWs are asked not to interfere with or misuse anything provided for their safety, health and welfare. This is a condition of employment with Randstad. Management reviews will be held each year to review implementation of this policy and draw upon further improvements for the following year. These improvements will include the policy itself and the associated business processes to attain objective of this policy.
